## HAZARDS

#### HEALTH HAZARDS

Contact causes burns to skin and eyes.

If inhaled, may be harmful.

Fire may produce irritating or poisonous gases. Runoff from fire control or dilution water may cause pollution.

### FIRE OR EXPLOSION

Some of these materials may burn, but none of them ignites readily. Flammable/poisonous gases may accumulate in tanks and hopper cars. Some of these materials may ignite combustibles (wood, paper, oil, etc.).

#### EMERGENCY ACTION

Keep unnecessary people away; isolate hazard area and deny entry. Stay upwind; keep out of low areas.

Positive pressure self-contained breathing apparatus (SCBA) and structural

firefighters' protective clothing will provide limited protection.

CALL CHEMTREC AT 1-800-424-9300 FOR EMERGENCY ASSISTANCE. If water pollution occurs, notify the appropriate authorities.

#### FIRE

Some of these materials may react violently with water.

Smail Fires: Dry chemical, CO2, water spray or regular foam.

Large Fires: Water spray, fog or regular foam.

Move container from fire area if you can do it without risk.

Apply cooling water to sides of containers that are exposed to flames until well after fire is out. Stay away from ends of tanks.

#### SPILL OR LEAK

Do not touch or walk through spilled material; stop leak if you can do it without risk.

Small Spills: Take up with sand or other noncombustible absorbent material and place into containers for later disposal.

Small Dry Spilis: With clean shovel place material into clean, dry. container and cover loosely; move containers from spill area.

Large Spills: Dike far ahead of liquid spill for later disposal.

# FIRST AID

Move victim to fresh air; call emergency medical care. In case of contact with material, immediately flush skin or eyes with running water for at least 15 minutes.

Remove and isolate contaminated clothing and shoes at the site.

Keep victim quiet and maintain normal body temperature.

LAND DISPOSAL RESTRICTION NOTIFICATION							
Generator Name: Dauglas Aircraft Company EPA ID Number: CAD 0865/0005							
Manifest Number: 01667   92301667 Date of Shipment: 10-28-93							
Indicate Waste Line Item (11): a							
- d	This notification is hereby submitted to NORRIS ENVIRONMENTAL SERVICES in compliance with El'A regulations described in 40 CFR Part 268 which prohibit the land disposal of certain hazardous wastes, unless these wastes are treated to meet specified standards or treated using specified treatment technologies.						
I have marked the appropriate box(es) below, which indicates how my waste must be managed to conform to land disposal ban and/or federal regulations.							
	KCKA Land Disposal Notification		California List Wastes Notification				
O	Liquid hazardous waste including free liquids associated with any solid or sludge containing free cyanide at concentrations greater than or equal to 1000mg/L.	th any solid or sludge containing free cyanide at					
	Treatment Standard-Cyanide Destruction Stabilization	,	above which must be treated in the appropriate treatment standard set forth in 40 CFR 268 Subpart D, or where no				
۵	Liquid hazardous wastes, including free liquids associated with any solid or sludge, containing the following metals (or elements) at concentrations greater than or equal to those specified below:		treatment standard exists for the California List Waste, the waste must be treated to the levels specified under 40 CFR 268.32.				
	Treatment Standard-Metals Recovery Stabilization						
			Waste Treated to Performance Standards				
	(check those that apply)						
	Arsenic und/or compounds (as As)  Barium and/or compounds (as Ba)  Cadmium and/or compounds (as Cd)  Chromium (V1 and/or compounds as Cr VI)  Lead and/or compounds (as Pb)  Mercury and/or compounds (as Hg)  Selenium and/or compounds (as Se)  Selenium and/or compounds (as Se)  Silver and/or compounds (as Ag)  Silver and/or compounds (as Ag)  Som mg/L;		The waste identified above has been treated in compliance with the applicable performance standars specified in 40 CFR 268 Subpart D and/or the applicable prohibitions set forth in 40 CFR 268.32. It certify under penalty of law that I have personally examined and am familiar with the treatment technology and operation of the treatment process used to support this certification and that, based upon my inquiry of those individuals immediately responsible for obtaining this information, I believe that the treatment process used to				
<u> </u>	Liquid hazardous wastes that are primarily water and contain halogenated organic compounds (HOCs) in total concentration greater than or equal to 1,000 mg/L and less than 10,000 mg/L. HOCs (see attached listing of HOC constituents)	•	support this certification and that, based upon my inquiry of those individuals immediately responsible for obtaining this information, I believe that the treatment process has been operated and maintained properly so as to comply with the performance levels specified in 40 CFR Part 268 Subpart I) and all appllicable prohibitions set forth in 40 CFR 268.32 or RCRA Section 3004(s) without dilutions of the prohibited waste. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment.				
	Treatment Standard-Carbon Absorption Steam Stripping		W. C. D. C. Worten				
	Liquid hazardous wastes containing polychlorinated biphenyls (PCBs) at concentrations greater than or equal to 50 ppm.		Waste Subject to Variance				
	Treatment Standard-Incineration, high efficiency boiler, other thermal treatment		The waste identified above is subject to a case-by-case				
X	Liquid hazardous wastes having a pH less than or equal to two(2) or pH equal to or greater than 12.5.	u	extension under 40 CFR 268.5, a no-migration petition under 40 CFR 268.6, a nationwide variance under Subpart C, or is soil or debris generated from a response action taken under				
	Treatment Standard-Neutralization Stabilization		CERCLA or corrective action under RCRA.				
ם	The spent solvent wastes specified in 40 CFR 261.31 as EPA Hazardous Wastes Nos F001, F002, F003, F004 and F005.						
	Treatment Standard-Specify technology used to meet Table CCWE Check constituent(s) on Table CCWE which were reduced below treatment standards						
The most recent copy of waste analysis or a description of the knowledge upon which this notification is based is attached. I hereby certify that all information submitted in this and all associated documents is complete and accurate to the best of my knowledge and information.
